

Physical Aspects of Polymer Science

8–10 September 2015
Manchester Institute of Biotechnology
Manchester, UK

Organised by the IOP Polymer Physics Group

<http://paps15.iopconfs.org>

The 27th meeting of the IOP Polymer Physics Group provides an opportunity for researchers from both academia and industry to discuss the latest innovations in understanding and manipulating the physical behaviour of a wide range of polymeric systems.

Abstract submission is now open

Contributions for oral and/or poster presentations are invited. Abstracts of a maximum of one A4 page (including figures and references) should be submitted online by 27 May 2015. A selected few poster abstracts will be offered the opportunity to give flash presentations during the meeting.

Details of abstract submission can be found online at <http://paps15.iopconfs.org/abstracts>

Invited speakers

- **Single Molecule Studies of Proteins from Extremophile Organisms**
Dr Lorna Dougan, University of Leeds
- **Topologically Constrained Polymers: From Rubber Elasticity to Chromosome Structure**
Dr Ralf Everaers, ENS de Lyon
- **Slide-Ring Materials with Movable Cross-links and Entropy of Rings**
Prof. Kohzo Ito, University of Tokyo
- **The Principle of Corresponding States in Block Copolymer Melts**
Prof. David Morse, University of Minnesota
- **Founders' Prize Lecture**
Prof. Richard A L Jones, FRS, University of Sheffield

Registration

Information regarding registration will be made available in May 2015. If you would like to register your interest for this event and receive an e-mail when registration is available, please e-mail conferences@iop.org and include the event reference 'Physical Aspects of Polymer Science'.

Venue

The conference will be held at the Manchester Institute of Biotechnology, part of The University of Manchester, UK. The venue is easily accessible from the city centre and is within a few minutes walk of the main city railway station, Manchester Piccadilly. Please visit <http://paps15.iopconfs.org> for more information.

Sponsorship and exhibition opportunities

A two-day table-top exhibition of scientific instruments, equipment and techniques will be held alongside the conference on Tuesday 8 and Wednesday 9 September 2015. The exhibition will provide companies in the field and related areas of polymer physics the opportunity to demonstrate their products to a captive audience.

For further information on exhibition and sponsorship opportunities visit <http://paps15.iopconfs.org/exhibition>

Key dates

Abstract submission deadline:	27 May 2015
Abstract submission deadline (poster presentations):	4 August 2015
Early registration deadline:	4 August 2015
Registration deadline:	1 September 2015
